

Target

Reliable LLMs

- 1. Factual**
- 2. Honest**
- 3. Consistent**

Unreliability Issues

Non-Factual Responses
Caused by **Ambiguous Knowledge Boundary**

Missing Benchmarks on
Challenging Scenarios for
Honesty Evaluation

Contextual Inconsistency
in **multi-turn Interactions**
of LLM Agents

Our Contributions

Factuality Alignment Strategy:
“From Perception to Expression”

**Benchmark 1: Multilingual
Confidence Estimation**
**Benchmark 2: Mathematical
Reasoning Solvability**

**Context Refinement for Agentic
RL Training Pipeline**

Evaluation

Tasks (Knowledge QA)
Metrics (EM, Time Cost)

Tasks (Multilingual, Math)
Metrics (ECE, AUROC, EM)

Tasks (RAG)
Metrics (Search Time, EM)
